TREND OF TRADE.

R. G. Dan & Co.'s Weekly Review of the Business Situation.

GREAT INDUSTRIES DOING WELL

Everywhere, Excepting the Iron Manufacture, Though in This Line, Despite the Strikes, the Output is Not Far Below That of Last Year. Iron and Steel in Very Active

NEW YORK, Aug. 12.-R. G. Dun & Co.'s weekly review of trade:

Crop reports are not quite up to expectations, and are construed as indicating a deficient supply of corn and oats. The great industries are all doing remarkably well, excepting the iron man-

markably well, excepting the iron manufacture.

The iron output August 1st was 155,136 tons weekly against 169,151 July 1st, and 169,576 a year ago, but the stocks ansold nevertheless increased 18,000 tons during the month of July, and on the 1st of August, exceeded a million tons. Southern pig iron is pressed for sale, and some quotations are lower than ever. But the resumption of manufacture by western iron works, which have settled their controversies with the men, will make a great change in the situation at once, increasing the output of pig iron but probably the demand still more. Manufactured iron and steel have been in very active demand, nearly all the works in operation being crowded with orders. But steel rails are dull as ever, and while only 700,000 tons have been sold for the year thus far, the orders on hand will hardly carry eastern mills beyond September 15. Copper is weak at 11½ cents and lead at 4 cents, but speculation advanced tin to 21.15 and depressed it to 20.45 cents. There is no market worth mentioning for coal. But in the textile industries the utmost activity prevails. Manufacturers are buying wool freely. Boot and shoe factories are still pressed to the utmost.

Collections are satisfactory at Chicago and throughout the west.

The business failures occurring throughout the country during the last seven days number 189 as compared with totals of 184 last week. For the corresponding week of last year, the figures were 227.

THE KNIGHTS TEMPLAR

Leaving Denver for Home—The Encamp-ment Work Completed.

DENVER, Coro., August 12.—The knights are leaving town rapidly, some to go home and others to make tours of the state. There are enough remaining however, to make the city lively. It is however, to make the city lively. It is estimated that 105,500 visitors were in Denver from outside during the week. There were probably 30,000 or 40,000 state residents in town. During the week Denver took care of a crowd of people equal to its own population. The Pullman Company handled 600 cars.

The Maple Leaf Club, composed of Canadian residents of Denver, gave a public concert at the city park to-day. The music was furnished by the famous Hamilton band, of Canada, which accompanies Et. Barnard's commandery, of Chicago.

of Chicago.

The following commanderies departed last night and early this morning: Tancred No. 48, Pittsburg; Denver club, of Philadelphia; Detroit No. 1, Pennsylvania.

Tancred No. 48, Pittsburg; Denver club, of Philadelphia; Detroit No. 1, Pennsylvania.

To-night the Triennial committee tendered an elegant banquet to the officers of the grand encampment. The Brown Palace hotel served the banquet and there were over 350 knights present. During the festivities Sir Knight McF. Patton, of Salem, Ogn., presented Grand Master Gobin with a peculiar gavel. It is made of Oregon oak, and in the centre of it is a maltese cross. The oak is a solid block taken from the tree just as it grew and the cross formation was the work of nature.

The Knights Templar grand encampment finished the work of the Twenty-fifth Triennial Conclave and adjourned to-day after having installed the newly elected officers. Grand Master McCurdy made the following appointments, which with the officers elected vesterday, make up the full 'list of officers of the grand encampment:

Sir Rev. Joseph McGrath, D. D., Illinois, prelate; Sir William H. Mellish, Ohio, grand standard bearer; Sir George Cooner, Tennessee, grand sword bearer; Sir H. M. Orahood, Colorado, grand warden; Sir John A. Sloan, Missouri, grand captain of the guard.

ELECTRICAL DISTURBANCES Interefere With the Telegraphic Service

Throughout the United States.

CHICAGO, August 12.—For several hours to-day the telegraph wires throughout the country from the Atlantic to the Pacific, and from the Gulf of Mexico to the lakes, showed the effect of a powerful electric influence, similar to the influences ob-served during the brightest manifestaserved during the brightest manifesta-tions of the aurora borealis or north-ern lights. For three hours during the middle of the day it was with the great-est difficulty that the telegraph wires could be worked to any part of the country. Even the Atlantic cables were not exempt. All telegraphic com-munication is consequently delayed, although the Western Union Telegraph Company's brincing to hear year acces-Company is bringing to bear very accessory known to art and science to combat the mysterious influences of the aurora borealis.

Jall Delivery Prevented.

CHATTANOOGA, TENN., August 12.—A jail delivery of twenty of the worst criminals in the county prison was prevented at a late hour last night. A hole had been cut through the wall and nothing remained but to push out a few bricks and leap to liberty. The jailer was informed at the last moment by a prisoner and arrived in time to prevent the escape.

Married Sitting Bull's Daughter. ROUNDOUT, WYO, August 12 .- A romantic wedding occurred here yesterday. The contracting parties were a a daughter of Sitting Bull, the great In-dian war chief, and Peter Narkle, for-merly of the United States army. Nar-kle, it is said, served with Custer for a long time, and it is reported that his bride once saved his life when attacked by Indians. by Indians.

Dickinson in New York.

New York, Aug. 12.-Don M. Dickinson, chairman of the Demorratic campaigu committee, arrived in this city paign committee, arrived in this city vesterday. Mr. Dickinson will remain here permanently and direct the campaign from this city. A conference was held by the leaders with Mr. Dickinson, and preparations for going into the campaign with a mill are being made. MASSACRED BY ARABS.

Spread of the Insurrection in the Congo Country. BRUSSRIS, August 12.—The Independence Belge says that 20 agents of the Katanga company have been killed or captured by the Arabs on the upper Congo river. The steamer Berneert, which

river. The steamer Berneert, which was taking goods up the river, was seized, and the factories were raided. Whole tribes on the western bank of the river are in insurrection. The Araba northwest of Nyangwe have gone down the Lualaba river and captured the station at Ribara, killing the whites employed there. The stations on the upper Lomassi have also been destroyed. The Araba at Stanley Falls, and Isangi who have hitherto been loyal are showing hostility. The Congo state authorities are sending reinforcements to various points threatened by the Arabs.

the Arabs.

The Arabs have grown desperate, owing to the evident determination of the whites to suppress the slave trade, by which the Arabs have accumulated their wealth and established their pow-

er. They were greatly encouraged by the disaster to the British under Capt. Maguire, last December, when Capt. Maguire and two other Englishmen lost their lives in a conflict with the slave traders, and the Arabs were still more strengthened in their hostile attitude by the more recent successful attack on Fort Johnston. Full particulars show that an attack on the fort was made by the natives under Arab leadership and a seven-pounder gun was captured. It appears that Fort Johnston is very small, and is inconveniently crowded. No hostile natives had been seen for time, and the garrison had been lulled into a false sense of security. Two of the white men, with some of the Sikhs, and a seven-pounder gun were encamped just outside the fort when they were surprised during the night by a body of natives, who wounded the Europeans and succeeded in capturing the gun. Makanjila, Kasembe and other Arab, the line of their success against the British, and urging them to join in a general movement to drive the whites from Central Africa. From the advices received at Zanzibar it is feared that Rachid, the nepiew and successor of Tippoo Tib at Stanley Falls, has joined in the insurrectionary movement, and declared his heatility to the whites, with whom he has pretended to be on terms of friendship. It is also understood that Rachid has unfurled the standard of rebellion and called upon his own followers and other chiefs, both native and Arab, to join avainst the white men and assist in restoring Arab supremacy. The followers of Rachid are armed for the most part with improved European rifles, and Rachid has for some time past been a large purchaser of ammunition, his eagerness in this respect having aroused some suspicion among the whites.

What has become of the European resident, who represents the authority of the Congo Free State at Stanley Falls is not known, but it is feared he has perished. The greatest anxiety is fell for the safety of the expeditions under Captan Jacques and Captain Joubert, which were sent out to su

cations extending from Zanzibar to Angola.

Big Elevator Burned.

an hour this afternoon the magnificent grain elevator and mill of Theodore B. Chase & Co., on the southeast corner of 34th street and 11th avenue was destroyed by fire. The fiames were first noticed in the tower and were in full possession of the structure when the first detachment of firemen arrived. They threatened to ignite the hay depot and exchange of the New York Central and Hudsen River railroads, but they were checked in time. The total loss on stock, building and machinery will reach \$150,000. No one was hurt.

Newspaper editors have to be very careful in opening their columns for statements. But aware that the Dr. Miles Medical Co. are responsible, we make room for the following testimonial from R. McDongall, Auburn, Ind., who for two years noticed a stoppage or skipping of the pulse, his left side got so tender he could not lie on it, his heart fluttered, he was alarmed, went to different doctors, found no relief, but one bottle of Dr. Miles' New Heart Cure cured him. The elegant book, "New and Startling Facts," free at Logan Drug Co's. It tells all about Heart and Nervous Diseases and many wonderful cures.

Last Excursion to Atlantic City.

The last opportunity to enjoy one of the cheap-rate excursions to Atlantic City, which have been run during the summer by the Baltimore & Ohio R. R., will be offered on Thursday, August 25. The same low rates will be provided as heretofore from Pittsburgh, Wheeling, Parkersburg and all intermediate stations to Washington Junction, Md., and as it will be the last excursion of the season no doubt it will be largely patronized by those who have not yet visited the seashore during the heated term. The train service provided for these excursions is unexcelled, and the country through which the express trains pass stands without a rival in the picturesqueness and variety of its seenery.
